

Ø100 mm Stainless Steel Pyrometer

100mm Stainless Steel Pyrometer has been used for marine engines, based on the nitrogen gas expansion principle.

Typical applications

- Cooling water
- Turbo charged air
- Lubricating oil
- Exhaust gas

Model No: CP1001

Product Specifications

STANDARD FEATURES	
Accuracy Class:	1,0
Mechanism:	Stainless Steel
Case & Frame:	Stainless Steel
Filling liquid:	Glycerine
Thread:	½ BSP
Connection Type:	Bottom
Connection Stem:	Ø12
Bulb Length:	15cm,20cm,25cm,30cm,40cm
Temperature Values:	0..600°C , 0..650°C
